THE EFFECT OF COLOR

Gryder Gallery is pleased to present its inaugural show, *The Effect of Color*, a group exhibition incorporating vibrant, energetic artworks that examine the power color has to move and shape us, leaving an indelible imprint on the human psyche. Throughout history, color has been rooted in the deepest impulses of art. It conveys the miraculous meaning of life. Color transcends frame and physical space, both revealing and embodying the universe's deepest metaphysical truths. This exhibition showcases works that espouse color as the key medium of spiritual intensity while harnessing the healing power of color—injecting vibrancy into our lives when we need it most, while also posing critical questions about our culture and society.

The Effect of Color will be on view at Gryder Gallery, located at 615 Julia Street, New Orleans, LA. A portion of all sales will be donated to The Innocence Project.
